

## CONVERGEONE PRIVATE CLOUD FOR EPIC HEALTHCARE SOLUTIONS

### The “Easy Button” for Your Epic Deployment

Want an easy-to-deploy Epic solution that fits your budget, leverages your existing investments and helps you provide better service to patients and employees? Look no further than ConvergeOne Private Cloud!

With ConvergeOne Private Cloud, it's like hitting the easy button and getting exactly the Epic solution you need — meeting the requirements of both your business and your quality care initiatives.

**WITH CONVERGEONE PRIVATE CLOUD, IT'S LIKE HITTING THE EASY BUTTON AND GETTING EXACTLY THE EPIC SOLUTION YOU NEED.**

## One Easy Source for Whatever You Need

Whether you're implementing Epic for the first time or upgrading an existing environment, ConvergeOne Private Cloud can deliver the architecture, integration, financing and ongoing support you need for your Epic healthcare applications.

For instance, you can get:

- > All the necessary components for a full deployment — compute, storage and switching — in a pre-integrated bundle
- > Any or all of the services needed to support your deployment from design and implementation through ongoing monitoring and maintenance
- > A fully managed solution, including infrastructure rollout and all the necessary support — all for a set monthly rate
- > A choice of additional consumption models to fit your financial needs (e.g., CapEx vs. OpEx) — whether you want to buy outright, lease to own or have simple per-user, monthly pricing
- > Expert support for upgrades, ongoing performance tuning and regular health checks for the life of your Epic applications

## The Team You Want Supporting You

With ConvergeOne, you're backed by a nationwide team of highly trained and certified technicians who are experts in delivering innovation solutions, from IT strategy and deployment to ongoing support. Our engineers have years of experience in Epic environments and expansive knowledge in designing, implementing and managing the architectures that support Epic. Thanks to years of working closely with a wide range of technology providers, we're also highly knowledgeable in integrating Epic with multivendor platforms and third-party applications.

In addition, ConvergeOne has extensive experience and skills working with healthcare organizations. We understand the industry, the needs of your users and your business requirements. The result is unique expertise for the support of your Epic solution.

**To learn more about Private Cloud for Epic and other healthcare solutions, please contact your ConvergeOne representative or call 800 805 0054.**

**Send us your Epic sizing guide and we will do an all-in-one solution and payment proposal tailored to your needs.**

### Some Advantages of ConvergeOne Private Cloud for Epic

**Easy to roll into your data center and integrate with your existing applications**

**Quick deployment, with little-to-no onsite work needed to get your infrastructure up and running**

**A single source of expert support rather than multiple outside providers or multiple individuals within your organization**

**Financing the way you want it, to fit your business needs — such as an easy-to-manage monthly rate with our buy/lease option**

**A choice of “mix and match” services for creating a package of support that delivers maximum flexibility, cost effectiveness and performance**

**An easy, all-in-one solution based on YOUR environment, YOUR budget and YOUR goals!**
