

## IF RANSOMWARE HITS YOUR ORGANIZATION, WILL YOU BE READY?

By the end of 2019, the global impact of ransomware is estimated to be over \$11 Billion, with a business attack occurring every 14 seconds.

Organizations of all sizes are looking at proactive approaches to avoid, detect, contain and remediate ransomware in case of an attack.

### ConvergeOne Ransomware Readiness Workshop

The ConvergeOne **Ransomware Readiness Workshop** focuses on your organization's readiness to a ransomware attack. During this workshop, ConvergeOne experts will analyze your environment for the following:

- User Awareness Training
- Patching and Asset Management
- End Point Security
- Network Security and Segmentation
- Email and Web Security
- Role-Based Access Controls
- Testing and Monitoring
- Incident Response Plans
- Backup and Restore
- Disaster Recovery

### ConvergeOne Experts

Our team of experts have designed this workshop to fully understand your current environment and identify potential risk factors.

The desired outcome of the **Ransomware Readiness Workshop**, offered at no cost to you, is to provide you with a consolidated list of recommendations and next steps to prepare your environment for any possible ransomware attack.
