

C1 Fabric

Unlock the full potential of your enterprise data

Organizations struggle with fragmented data sources, poor data hygiene, and inefficiencies in leveraging AI-driven insights. C1 Fabric solves these challenges by providing a unified, centralized, and automated data management solution that connects seamlessly with enterprise systems. It empowers businesses with AI-powered analytics, workflow automation, and hybrid cloud support, ensuring data readiness and real-time decision-making.

Key benefits

- **Seamless data integration:** Connects all enterprise data sources with an Integration Platform as a Service (IPaaS).
- **Data management:** Normalization and cleansing of all your enterprise data to ensure more accurate AI outcomes and insights.
- **Hybrid cloud flexibility:** Supports on-premises, private, and public cloud environments.
- **AI-driven insights:** Transforms raw data into actionable insights with C1 Elly-powered AI.
- **Unified orchestration:** Ensures seamless data access and connectivity across cloud and legacy systems.
- **Enhanced security and compliance:** Maintains strict governance and security standards.

Solutions and capabilities

- **Integration platform as a Service (IPaaS):** Provides pre-built integrations and APIs for seamless connectivity and highly customized integrations.
- **Hybrid cloud support:** Operates across on-premises, private, and public cloud in addition to hybrid cloud infrastructures.
- **Unified orchestration:** Connects and orchestrates cloud applications and on-premises systems, ensuring unified data access and readiness across all technologies.
- **Data and analytics:** Seamless access to unified, normalized and ready-to-use data, delivering robust generative AI automations for real-time AI-driven analytics.
- **C1 Elly generative AI:** Transforms data into safe and accurate automated AI-driven workflows to improve productivity and the customer experience.
- **Avaya modernization:** Enables existing legacy Avaya systems to integrate with modern collaboration tools for migration to the cloud at any pace.

"We no longer worry about outages. C1 provides a seamless experience, helping us manage our telephony, call recording, and adjacent platforms."

Jason Skaria, Global CIO
