

C1 IT Lifecycle Services for Dell

As organizations approach the end-of-support deadline for Windows 10 (October 14, 2025) and manage aging hardware from COVID-era purchases, C1's IT Lifecycle Services (ITLS) for Dell provides a streamlined, cost-effective solution. Our service ensures minimal disruption while modernizing your IT infrastructure with seamless device upgrades and deployments.

Why consider a refresh with C1 ITLS now?

- **Avoid security risks:** Ensure compliance and security by upgrading from Windows 10 before end-of-support.
- **Accelerated deployment:** Reduce downtime with rapid, expert-led device rollouts.
- **Cost optimization:** Strategic procurement and warehousing to avoid price surges due to tariffs and other factors as well as supply shortages.
- **Increased productivity:** Take advantage of productivity enhancements with the latest Dell laptop hardware infused with AI.
- **Proven expertise:** Successfully managed tens of thousands of deployments across industries.

Key features

End-to-end IT refresh solutions

From procurement to post-deployment management.

Scalable services

Supports large-scale refreshes across enterprises, K-12, and public sector organizations.

Lifecycle management

Continuous support including warranty services, RMA processing, and inventory management.

Customizable deployment

Tailored solutions integrating seamlessly into existing workflows.
