DATA SECURITY SERVICES

ENHANCE BUSINESS CONTINUITY AND REDUCE RISK

SECURE DATA FOR BUSINESS CONTINUITY AND COMPLIANCE

Protecting data and information in today's hybrid-Cloud ecosystem and remaining compliant is challenging but critical. Data is at risk of being manipulated, copied, deleted, altered, stolen, ransomed, or worse. It's a quick and easy financial win for internal and external attackers.

Threats are active in systems for months before discovery so it's essential that data protection spans the enterprise ecosystem. Effective data security requires strategic and tactical solutions across the entire lifecycle to monitor and protect data, while aligning to business outcomes.
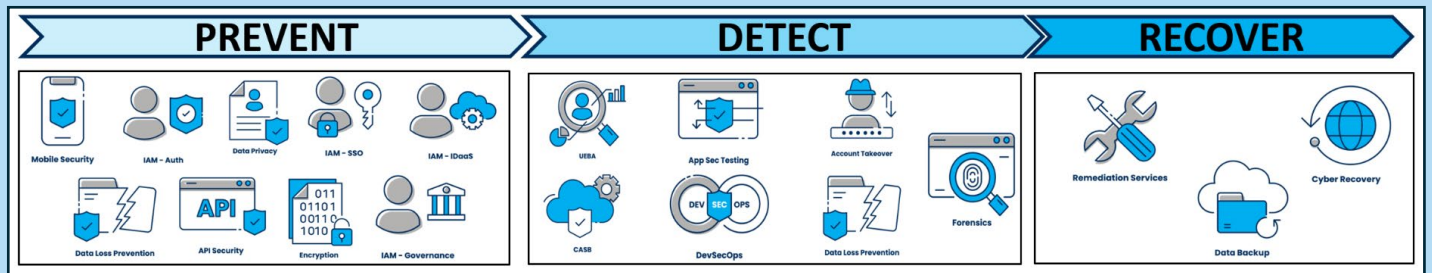

AVOID LEGISLATIVE FINES AND BUSINESS INTERRUPTION

ConvergeOne Data Security Services ensure data is intact, available, and protected from attackers, inside and outside the business. Compliant solutions avoid legislative fines, optimize return on investment and maintain customer trust.
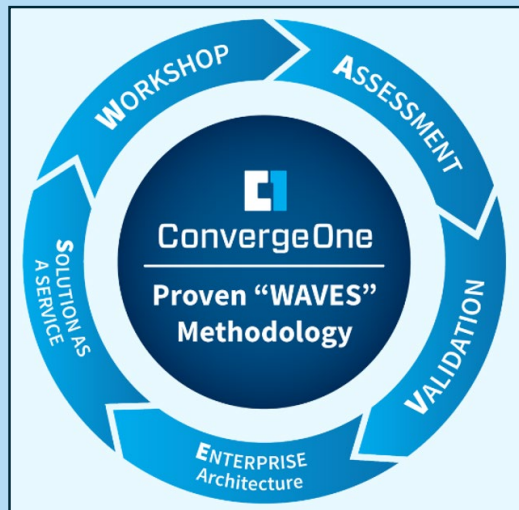

CONVERGEONE DATA SECURITY SERVICES

ConvergeOne looks at data security through the lens of Prevent, Detect and Recover, and the growing needs of the enterprise, attack vectors and business continuity requirements. Deep integration experience combined with end-to-end security knowledge and capabilities provide optimized data security at rest, in use, or in transit.

- **+** Data Assurance and Governance gives visibility of, and confirms data is where it's supposed to be, compliant, and of known origin and accuracy.
- **+** Data Protection safeguards data when shared through: DRM, tokenization, masking, DLP, encryption and monitoring.
- **+** Data Security Lifecycle Management facilitates business continuity with Vaulted data, including recovery, backup, archive, migration, retention and destruction.
- **+** Certificate and key lifecycle management protects data in a hybrid-Cloud extended enterprise ecosystems, including certificate and registration authorities.

PREVENT

Mobile Security · IAM – Auth · Data Privacy · IAM – SSO · IAM – IDaaS

Data Loss Prevention · API Security · Encryption · IAM – Governance

DETECT

UEBA · App Sec Testing · Account Takeover

CASB · DevSecOps · Data Loss Prevention · Forensics

RECOVER

Remediation Services · Cyber Recovery

Data Backup

Using ConvergeOne's innovative WAVES methodology, critical gaps, risks and governance challenges can be quickly identified, so effective data protection strategic designs and blueprints can be accelerated for:

WORKSHOP · ASSESSMENT · VALIDATION · ENTERPRISE Architecture · SOLUTION AS A SERVICE

ConvergeOne
Proven "WAVES" Methodology

+ Data Assurance and Governance for accountability, data tagging, discovery, management, processing and usage.

+ Data Protection methods tools and techniques to protect sensitive or confidential data or information from unauthorized loss, modification or use.

+ Data Security Lifecycle Management for the creation, storing, use, sharing, archiving and destruction of data

+ Certificate and key lifecycle management for the process of key and certificate registration and generation, distribution, storage, backup, usage, renewal, expiration, revocation, recovery, notification and auditing of keys and digital certificates.

ConvergeOne Advisory, Professional and Managed Services provide support to ensure data protection solutions are implemented quickly, configured, managed and optimized to protect business. This ensures internal teams have the expertise and time they need to deliver value-add and revenue growth activities for the business.

PROTECTION MUST FOLLOW DATA INTO THE CLOUD

A sizable human services provider migrated several new patient database projects to the cloud. ConvergeOne provided a data protection refresh and deployed a comprehensive integrated data protection solution to consolidate and simplify the data protection environment to a single solution for all workloads in the cloud.

ConvergeOne is ranked a top 10 Security Partner in North America, a Trusted Partner for Cybersecurity Solutions, Cloud, and a Cisco Regional Security Partner for 3 years running.
